

Using the Casualty Simulation Kit Spreadsheet

Enter the number of kits you require next to the “Number of Kits Required”, the program will automatically calculate the quantity required and enter it in the first column. Note the package quantity under “Item Description” Enter the price *per unit* in the price column. As you enter each price the extended price and total will automatically be updated. You may adjust quantities up slightly to take advantage of bulk savings.

Note 1: Triangular makeup sponges are not washable or reusable and should be discarded after use.

Note 2: Fill 4oz. spray bottles with brush cleaner, two 4oz. bottles per kit.

Note 3: Fill bags with 50 cotton swabs, 2 bags in each kit.

Note 4: Food colour is used to tint the glycerin/water mixture for sweat. Only a drop or two is needed.

Note 5: Fill 4oz. wide mouth bottles with Pros-Aide, two 4oz. bottles per kit

Note 6: To replenish this item purchase the Skin Tite 4 oz Dropper Kit With Thi-Vex

Note 7: If you're concerned about latex allergy you can substitute a product like Water-Melon

Note 8: Sponges torn into small pieces and stored in plastic bags. Can be washed and reused.
